

Shanghai Caohejing East Area Planning

Shanghai, China

This site is located in the eastern part of the Caohejing Hi-Tech Industrial Development. The surrounding area has been primarily developed for industry and R&D offices, with newer developments focusing on residential complexes. With its position within a dense urban road network, the site is easily accessible from all directions. Future plans for expanding subway lines in proximity to the site further make the area well suited to mixed-use development. Project Data
